LDAP Credentials for Faculty, Staff, and Students

Please be informed that LDAP credentials have been created for all categories of faculty, staff, and students. The credentials for each category are as follows:

Regular Faculty/Staff:

- **Username:** 0100 (Four-digit Employee Code)
- **Temporary Password:** 0100 (Four-digit Employee Code)

Other Staff Categories:

- **Username:** 70075 (Five-digit Employee Code)
- **Temporary Password:** 70075 (Five-digit Employee Code)

Students:

- **Username:** CE22B002 (Student Roll Number)
- **Temporary Password:** CE22B002 (Student Roll Number)

Password Reset Link: http://ldap.iittp.ac.in/self-service-password/

These LDAP credentials will be used for authenticating users to access various institute services, including faculty profile access, Institute VPN, and Wi-Fi networks (SSID(s): IITTP-Test-1, EDUROAM, and Guest).

Faculty, students, and staff will be able to access the Institute's Wi-Fi network using their LDAP credentials. Initially, the username and password will be your employee code or roll number, and you can change your password using the link provided above.

Please note that without the correct username and password, access to the Institute's Wi-Fi will not be possible.

For assistance with the **Eduroam** configuration, a help document is available on the CC website. Click here to view the document.

Should you have any queries or encounter issues regarding your LDAP access credentials, kindly send an email to **cc_software@iittp.ac.in**.
